# One brand system, localised by market

Pyle has one brand: the same red, the same rings, the same voice and the same promise wherever we sell. What changes from market to market is the **regulatory layer**: how we show prices, which languages we print, which conformity marks go on the box, and how we ask for permission to market to people.

Sections 1 and 2 are **global and fixed**. Sections 3 and 4 are **regional and mandatory**. Where a regional rule conflicts with a global brand rule, the regional rule wins. We then solve the brand problem inside the law, never around it.

> **Brand is the constant. Compliance is the local dialect.**

## Source of truth

*Pyle USA — Visual Brand Identity Refresh* (Jan 2025). Only the **"Visual Brand New"** direction applies. "Visual Brand Now" and "The Packaging Now" are deprecated and must not be reproduced.

## Labels used in this guide

- 48HD STANDARD A rule 48HourDigital set where the source deck shows the asset but gives no numeric rule.
- SAMPLED A value measured from the source artwork. Confirm it against the master files before print.
- REGIONAL A legal or regulatory requirement. Counsel confirms it before launch.

MISSION & VISION

# We turn up for you, so you turn nothing down.

**MISSION**

Pyle exists to shorten the distance between something you're thinking about and something you actually do. For more than 45 years we've made sound and hobbies accessible, so anyone with a spark of curiosity can plug in, start playing and feel it at full volume.

**VISION**

To be the world's most welcoming way into sound. We want to be the first brand a beginner trusts, the go-to brand for the tinkerer, and the gift that turns someone else's "maybe one day" into "today", in every home, garage, boat, stage and backyard in every market we serve.

**45+**

**years** powering passions, hobbies and side projects

**product categories**: Automotive, Home, Instruments, Live Audio, Marine, Power, Production, Security, Tools & Accessories, Video

THE 45-YEAR HERITAGE STORY

# Becoming downright unsilenceable.

For more than 45 years, Pyle has powered passions, hobbies, side projects and inspired gifts into existence. We built our name by making functional gear more accessible to hobbyists, newcomers, garage artists, analog DIYers and people building second setups.

Our promise has never changed. We lower the entry barriers so you can start at any budget, plug into anything easily, and feel it all at full output. We give you the luxury of tuning in, living out loud and feeling your dreams at full volume, until you become downright unsilenceable.

Now that promise is going international. From Toronto to Toulouse, Manchester to Melbourne, Pyle is bringing the same invitation to a new generation of makers, players and listeners.

> "We have a half-century heritage of making functional gear more accessible. With lower entry barriers, you can get started at any budget, easily plug into anything, and feel it all at *full output*."

BRAND ARCHETYPE

# 80% Explorer. 20% Jester. 100% Pyle.

Pyle's personality blends two archetypes in a fixed ratio. The Explorer leads: it gives every message its purpose. The Jester follows: it gives every message its spark. Get the ratio wrong and we sound either like a spec sheet or like a joke. Get it right and we sound like the friend who talks you into the thing you'll love.

## 80%
## Explorer

Explorer brands help you discover the world. Their products free your individuality, initiative and excitement, and turn experiences into growth.

| | |
|---|---|
| DESIRE | Fulfillment |
| REPUTATION | Curious |
| GIFT | Discovery |
| EMOTION | Love · Passion · Fulfillment · Curious · Discovery |
| TRAITS | **Encouraging · Confident · Relatable · Experienced** |

## 20%
## Jester

Jester brands invite you to live in the moment, just for the fun of it. They worry less about long-term outcomes and entertain along the way.

**Desire** Joy · **Reputation** Entertaining · **Gift** Perspective
**Emotion** Joy · Energy · Entertaining · Happiness · Hope
**Traits** Optimistic · Laidback · Nudging · Irreverent

PERSONALITY MATRIX · ACTIONABLE TONE RULES

# Eight traits, put to work.

| TRAIT | WE SOUND LIKE… | IN PRACTICE |
|---|---|---|
| **Encouraging** (Explorer) | A friend who says “you’ve got this.” | Lead with what the customer can *do*, not what the product *is*. “Start your first podcast tonight.” |
| **Confident** (Explorer) | Someone who’s done this for 45 years. | State facts plainly. No hedging, no hype. “100 W peak. Bluetooth 5.0. Done.” |
| **Relatable** (Explorer) | A fellow hobbyist, not a salesperson. | Use everyday words. Explain jargon the first time it appears. |
| **Experienced** (Explorer) | A trusted guide. | Give one useful tip per touchpoint. Max Volume delivers it. |
| **Optimistic** (Jester) | Someone who sees the fun first. | Frame upgrades and first purchases as beginnings, not risks. |
| **Laidback** (Jester) | Relaxed, never pushy. | No false urgency, countdown pressure or fear-based selling. |
| **Nudging** (Jester) | A playful push off the fence. | Short, active invitations: “Plug in. Turn up. Get into it!” |
| **Irreverent** (Jester) | A wink, not a sneer. | Light wordplay and sound puns, at most one per piece. Never at the customer’s expense. |

**The 80/20 rule in copy:** In any piece of copy, roughly four sentences inform, guide or inspire (Explorer) for every one that delights (Jester). Headlines may lean Jester. Specs, safety, legal and support copy are always 100% Explorer, with zero jokes.

AUDIENCE PROFILES · 1 OF 2

# Four people we turn up for.

Every Pyle message is written for at least one of these four people. If a piece of copy doesn't speak to any of them, it isn't Pyle copy yet.

| VOICE | Benefit- and occasion-led, warm, with clear guarantees. “The next thing they’ll love.” |
| CHANNELS | Gift guides, seasonal campaigns, email, retail end-caps. |

**The next thing you’ll love.**

TONE OF VOICE & COPYWRITING

# Talk like a friend who knows gear.

ENCOURAGING CLEAR PLAYFUL HONEST

## Core copy principles

1. **Lead with the passion, then prove it.** Open with what the customer gets to do, then back it up with the spec.
2. **Short beats long.** Headlines: 2–6 words. Bullets: one benefit and one proof each. Sentences: under 20 words.
3. **Active, second person.** "You", "your", "let's". Avoid "users" and "consumers".
4. **Numbers are proof.** Use real, verified figures: watts (state RMS or peak), frequency response, battery hours, IP rating.
5. **One wink per piece.** One pun or playful line per asset, at most. Never in safety, legal or support copy.
6. **Truth is non-negotiable.** Every claim must be substantiated, region-correct and approved (see Section 3).

## Product listing formula

**Title:** `Pyle [Product Name] – [Key Spec], [Key Feature], [Use Case]`

*Example: "Pyle 3.5" 2-Way Indoor/Outdoor Speaker System — IP67 Waterproof, 70–21 kHz, Universal Wall Mount"*

- **Hook line:** one sentence on the passion it unlocks.
- **3–5 bullets:** `BENEFIT IN CAPS: proof in plain language.`
- **What's in the box · Tech specs table · Compatibility**
- **Warranty & guarantee statement:** region-specific (see Section 3).

DO'S AND DON'TS · PRODUCT LISTINGS

# Proof beats promises.

| ✓ **"100 W peak / 50 W RMS power"** | ✕ "Massive 1000 W!!!" (unqualified, inflated or unverifiable wattage) |
| ✓ **"Pairs with Bluetooth 5.0 phones, tablets and laptops."** | ✕ "Works with everything." |
| ✓ **"Setup takes about 5 minutes. A step-by-step guide is in the box."** | ✕ "Easy setup!" with no proof |
| ✓ **"Designed in the USA" (badge, used exactly as supplied)** | ✕ "Made in the USA", "American-made", or editing the badge wording |

| ✔ **Show genuine reference prices for promotions (per regional rules)** | ✕ Fake "was" prices, invented discounts or perpetual "sales" |
| ✔ **Invite: "Plug in. Turn up. Get into it!"** | ✕ Pressure: "Only 2 left! Buy NOW or miss out forever!" (unless true and verifiable) |
| ✔ **Use real customer reviews, gathered and displayed lawfully** | ✕ Incentivised, fabricated, cherry-picked or undisclosed-incentive reviews |
| ✔ **Max Volume for tips, onboarding and helpful nudges** | ✕ Max Volume in price claims, legal copy, safety warnings or complaints handling |
| ✔ **Clearly label paid partnerships (#ad / "Paid partnership")** | ✕ Hiding influencer payments or gifted-product relationships |
| ✔ **Inclusive casting and language** | ✕ Jokes about skill level, age, gender, body or accent |

# Visual Identity Standards

*Simplicity. Memorability. Timelessness. Versatility. Relevance.*

LOGO SYSTEM

# One wordmark. Three ways to wear it.

The refreshed PYLE wordmark keeps the heritage letterforms and sharpens them for screens, packaging and product. It is built on a precise construction grid and judged against five principles: Simplicity, Memorability, Timelessness, Versatility and Relevance.

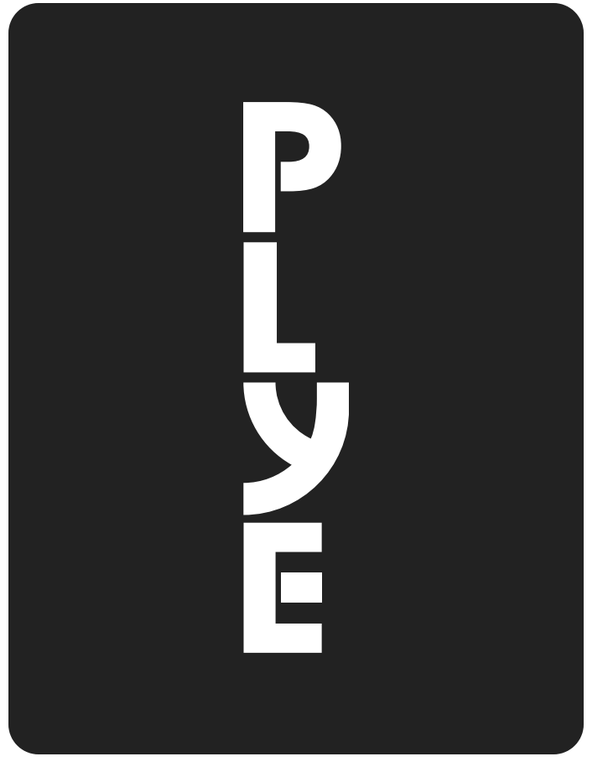

### 1 · Primary Wordmark: PYLE

The default on every touchpoint: packaging fronts, web headers, advertising, social and documents.

### 2 · Stacked Icon: PY / LE

For small square formats: app icons, favicons, avatars, product badges, embossing, hang-tags. It never replaces the wordmark on pack fronts or in headlines.

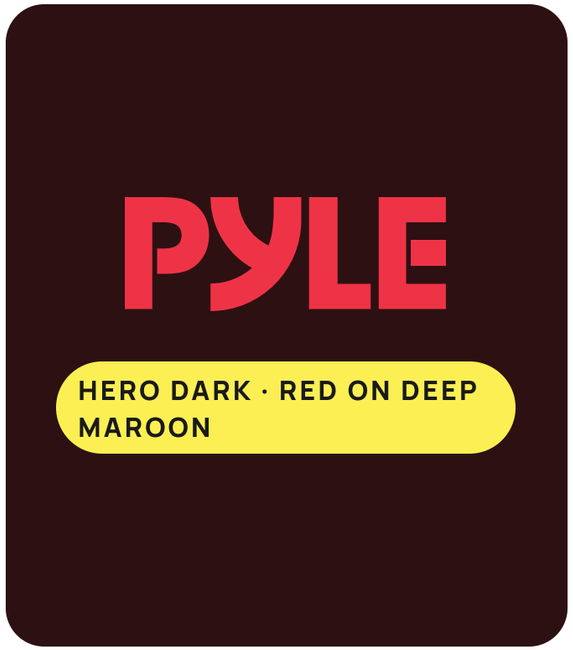

### 3 · Vertical Lockup

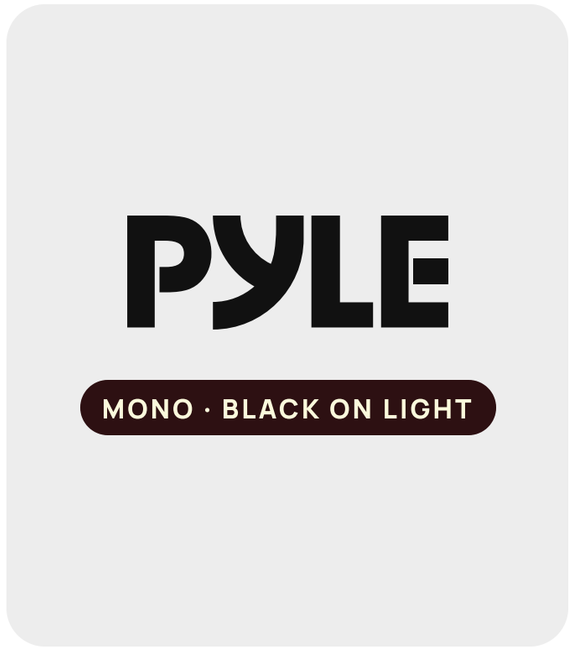

For tall, narrow surfaces: speaker grille badges, tower speakers, mic stands, side gussets, tape. Reads top to bottom.

LOGO · APPROVED COLOURWAYS

# Four approved backgrounds. No exceptions.

## On photography

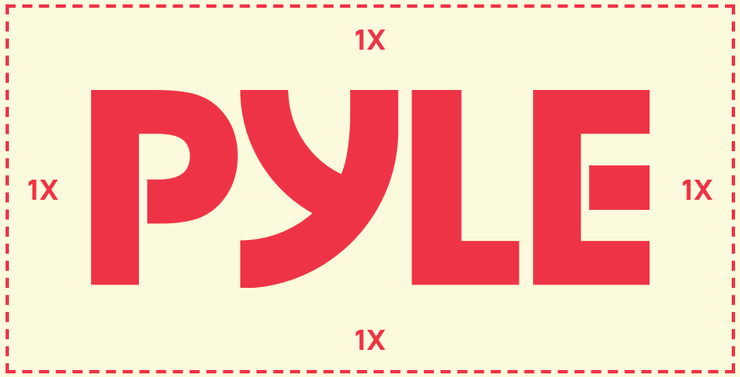

Use Cream or Accent Yellow on photography only where the logo area passes contrast (see Colour, Slide 22). Keep a calm, low-detail zone behind the mark.

## Registered symbol ®

Use ® only in jurisdictions where the PYLE mark is registered. Where registration is pending or not held, use ™ or no symbol. Falsely claiming registration is an offence in several of our markets (including the UK and Australia). Brand Legal holds the master registration list.

CLEARSPACE & MINIMUM SIZE 48HD STANDARD

# Give it room to be loud.

- **X = the cap height of the "P"** in the wordmark as used.
- Primary wordmark: **1X** on all sides. Stacked icon: **0.5X**. Vertical lockup: **0.5X** left and right, **1X** top and bottom.
- No text, graphics, edges, folds or rings may enter the clearspace. Rings may run *behind* the logo only on full-bleed brand backgrounds where the logo passes contrast.

| ASSET | PRINT | DIGITAL |
|---|---|---|
| **Primary wordmark** | 20 mm wide | 80 px wide |
| **Stacked icon** | 10 mm wide | 32 px wide<br>16 px favicon uses a simplified, pixel-hinted file |
| **Vertical lockup** | 8 mm wide | 24 px wide |
| **"Designed in the USA" badge** | 12 mm diameter | 48 px diameter |

## Logo misuse: never

- × Stretch, condense, skew, outline or add effects (shadow, glow, bevel, gradient).
- × Recolour outside the approved colourways, or retype the logo in Parafina or any typeface.
- × Use the deprecated "Visual Brand Now" logo or the pre-refresh "PYLE® Experience Life!" lock-up.
- × Place it on busy photography without a contrast-safe zone.
- × Combine it with a sub-brand, retailer logo or tagline inside its clearspace.
- × Rotate the horizontal wordmark 90° to imitate the vertical lockup.

"DESIGNED IN THE USA" BADGE

# An endorsement, never a headline.

Left: dark outline on light or kraft backgrounds. Right: white on Pyle Red. Illustrative render; always use the master artwork file.

## Placement

- **Packaging:** Trust panel and lower-right of the Product panel.
- **Product pages:** next to warranty and guarantee information.
- **Advertising:** as an endorsement, never as the headline.

## Rules

- Never change the wording to "Made in", "Built in" or "Engineered in".
- Never use the badge on a product that was not genuinely designed by Pyle's US team.
- Always show the true country of manufacture elsewhere on the pack (e.g., "Made in China").
- Never place the badge directly beside the country-of-origin line where the two could be read as one claim.

CANADA · MANDATORY

Packaging sold in Canada carries the French badge, **"CONÇU AUX ÉTATS-UNIS"**, either as a bilingual roundel or paired with the English version at equal or greater prominence (see Slide 37).

OTHER LANGUAGES · OPTIONAL

EU language variants of the badge are optional. Translated badges are produced only from the master file by 48HourDigital.

GRAPHIC SYSTEM

# The Pulse of Play

*The heartbeat of Pyle.*

“Pulse of Play” is our visual design system. It captures the dynamic essence of Pyle’s audio experience in concentric soundwave rings that radiate outward like sound from a speaker cone or the grooves of a record.

It stands for innovation, quality and the joy of sound that echoes through every product we create. With Pulse of Play, every beat and note is not just heard, but truly felt, across every visual touchpoint.

**Radiating sound into every space.**

PULSE OF PLAY · CONSTRUCTION RULES

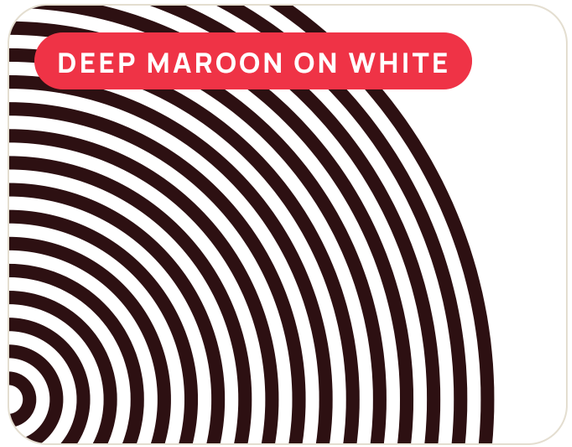

# Concentric. Even. Always from a source.

- Rings are **concentric and evenly spaced**. Stroke weight and gap are equal (1 : 1) by default. A 1 : 1.5 gap is permitted on large formats.
- The ring centre (the “source”) sits on a meaningful point: the product’s driver, a performer’s mouth or microphone, the logo, or deliberately off-canvas so arcs sweep in from a corner.
- **With photography:** rings may wrap around or emerge from behind a cut-out subject to create depth. They never cross a face or obscure the product.
- **Motion:** rings pulse outward from the source at tempo. Use 1–2 seconds per cycle, ease-out, and loop seamlessly. Respect `prefers-reduced-motion` with a static frame.
- **Never:** distort rings into ellipses (except for perspective on 3D packshots), add gradients, mix more than two ring colours, or use rings as a text background below 7 : 1 contrast.

## PULSE OF PLAY · IN USE

BRAND MASCOT

# *Meet* Max Volume

Max is our Megaphone Mascot, a character who embodies the spirit of Pyle's audio innovation and community engagement. Max is the voice of the brand. He delivers helpful **tooltips**, **inspiring quotes** and engaging content directly to our audience.

### Where Max appears

- Tooltips and "Tip:" call-outs in user guides, quick-start cards and product pages
- Onboarding moments, empty states and success messages in digital products
- Social content, packaging inserts, and community or event content

### Max's voice

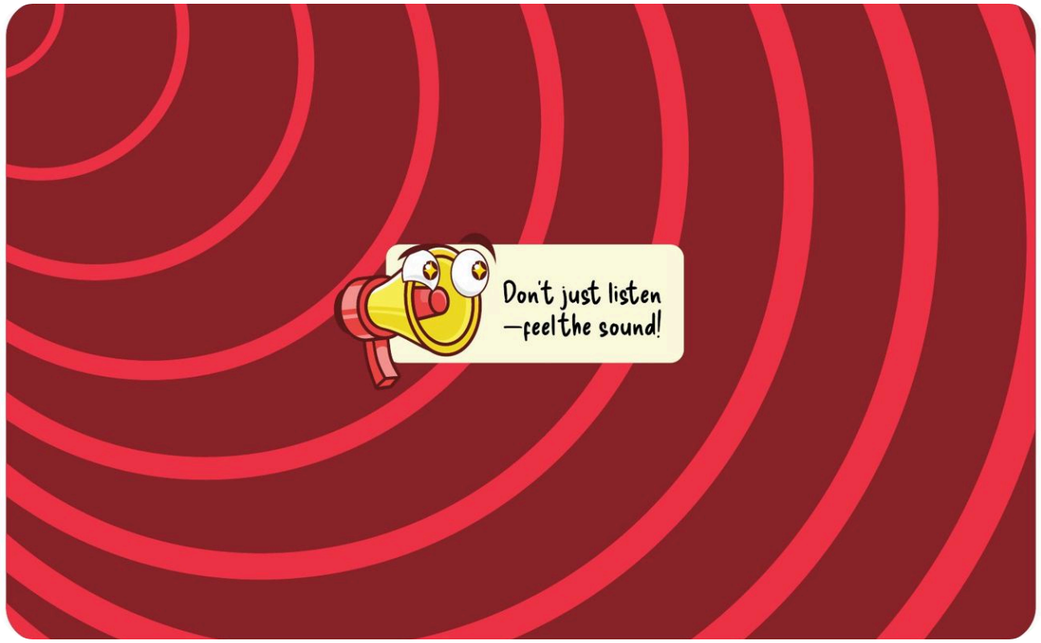

Short, upbeat, useful. Always one actionable idea. Written in Delicious Handrawn inside a Cream speech bubble.

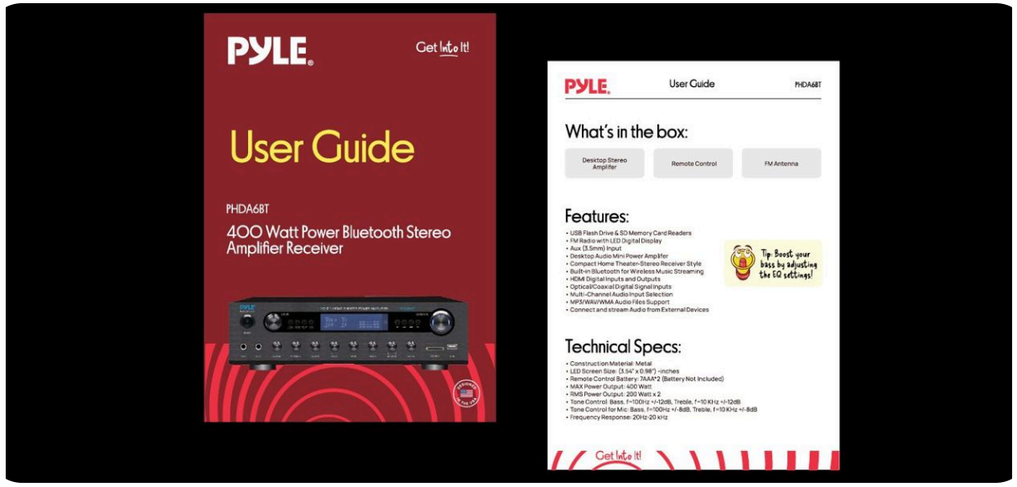

Don't just listen — feel the sound!

Try this feature for a sound that's as big as life!

Tip: Boost your bass by adjusting the EQ settings!

## MAX VOLUME · USAGE RULES

1. Max appears **once per layout**, maximum.
2. Max always **speaks toward the content** he refers to. The megaphone points at the bubble or the feature.
3. Maintain **0.5× Max's height** in clearspace around the character and bubble.
4. Minimum size: **24 mm / 64 px** tall.
5. Never recolour Max, change his expression set, add accessories, crop his face, or animate him off-model. All poses come from the master character sheet.
6. Max is not used next to the "Designed in the USA" badge or regulatory marks.
7. **Localisation:** Max's lines are *transcreated*, not translated word for word. In Canada, every Max bubble on packaging and in Quebec-facing digital content must have a French version.

### Max never delivers

Prices or promotions · safety warnings · legal or compliance statements · warranty or guarantee terms · apologies or complaint responses. Those are always plain Manrope copy.

# Show the gear. Show the feeling.

A · E-COMMERCE PACKSHOTS

## “The Proof”

- Pure white background (#FFFFFF) for marketplace hero images; Light Grey or Cream for brand-site secondary images.
- Product fills **85%** of the frame, shot square (1:1), minimum 2000 × 2000 px.
- Even, soft, shadowless or soft-contact-shadow lighting, with true-to-product colour.

- No added logos, badges, watermarks, Max Volume or promotional text on hero images.
- **Regional accuracy:** plugs, chargers and on-screen languages match the market: Type A/B (US/CA), C/F (EU), G (UK), I (AU). Never show a charger in markets where the product ships without one.

B · LIFESTYLE

## “The Feeling”

- Real people mid-passion: singing, playing, building, celebrating. Faces show joy, focus or surprise.
- Warm natural light, lived-in environments, honest textures. No sterile studio sets.
- Product is visible and in use. The scene is the hero, the gear is the enabler.
- Pulse of Play rings may be composited to radiate from the product.
- Casting reflects the diversity of each market, with a range of ages, abilities, body types and backgrounds, and matches our four personas.
- **PRO line:** dark, high-contrast, coloured gels (cyan/red), performer close-ups. **VINTAGE line:** light grey sets, retro wardrobe, chrome and classic microphones.

PACKAGING STANDARD · THE 5-PILLAR PANEL SYSTEM

# Every box tells the whole story in five panels.

Every Pyle pack, from kraft master carton to full-colour retail box, is organised into five content pillars. Customers find the same information in the same place on every product, in every market.

## 1 Brand

*Top panel & lead face.* Instant recognition from any shelf angle.

Primary wordmark (largest element), Pulse of Play arcs, pyleusa.com. The top flap repeats the wordmark inverted so it reads when the box is opened.

## 2 Lifestyle

*The emotional face.* Show the feeling and the "why".

Lifestyle photograph (consumer pack) or "The next thing you'll love." (master carton), with Pulse of Play composited around the product in use.

## 3 Product

*Principal display panel.* What it is and why it's great, in 5 seconds.

Model number pill (e.g., PDWR35BK) · product name in Parafina · line art or photo · **three key features** in the yellow callout box · "Get Into It!" · USA badge · PRO/VINTAGE badge.

## 4 Technical

*Side or back panel.* Everything for the tinkerer.

Feature list with Product Feature Iconography, full specs table, I/O diagram, what's in the box, compatibility, dimensions & weight (units by region). **Order:** Product → Feature → Spec → Benefit.

## 5 Trust

*Base of technical panel / bottom.* Safe, legal, accountable.

Barcode (UPC/EAN), country of manufacture, regulatory marks, warnings (e.g., Prop 65 in US), manufacturer & importer addresses, warranty/guarantee, recycling marks, support contact.

**The Trust panel is the regional module.** It is designed as a swappable "compliance strip", so one master artwork can be released as US, CA, EU, UK and AU variants (see Section 3).

## PACKAGING · TWO PACK TIERS

### Primary Master Carton

Natural kraft, one-colour black print. Pulse of Play arcs, line-art product, the same five-pillar logic. Sustainable, low ink, shipping-ready.

### Primary Consumer

Full-colour Maroon pack (or the White variant for clean retail and e-commerce), lifestyle photo window, Accent Yellow feature box. Branded Pyle Red tape for direct-to-consumer shipments.

### Packaging rules

- The wordmark appears on at least four faces.
- Feature callouts: maximum three on the front. Everything else goes to Technical.
- No price, retailer-specific or time-limited claims are printed on pack.
- All regulated text is in Manrope, black or white, at legal minimum size or larger.
- Language-of-pack rules, regulatory marks and addresses vary by market. Follow Section 3 exactly.

## PACKAGING · CONSUMER PACK FAMILY

Standard (Maroon), **PRO** (dark, gel-lit) and **VINTAGE** (light grey) lines share one grid: wordmark top-left, model pill, product name, yellow feature box, lifestyle window, “Get Into It!” and the badge bottom-right.

# Regional Requirements & International Compliance

*Same Pyle. Local rules.*

**Global rule for all four markets:** Before any SKU, storefront or campaign goes live in a new market, it passes the **Regional Launch Checklist**: language, pricing display, regulatory marks, Trust panel, legal pages, consent flows, guarantee wording and accessibility.

*These slides summarise regulatory requirements affecting brand, packaging, e-commerce and marketing as of October 2026. They are not legal advice. In-market counsel signs off on each launch.*

CANADA (CA) · LANGUAGE

# Bilingual by law. Tax-exclusive by habit.

## Federal: Consumer Packaging and Labelling Act

The mandatory label information on prepackaged consumer products must appear in **both English and French** nationwide: product identity, net quantity, and dealer name and principal place of business. **The Canadian SKU pack is bilingual EN/FR everywhere in Canada**, not just in Quebec.

## Quebec: Charter of the French Language (as amended by Bill 96)

- **Product & packaging:** every inscription on the product, container, wrapping and accompanying documents (user guides, warranty certificates, quick-start cards, inserts) must be in French. Other languages may appear, never with greater prominence.
- **Trademarks:** "PYLE" may remain in English as a registered trademark. Since 1 June 2025, **generic or descriptive words in or around a trademark must be translated** ("Speaker System" → "Système de haut-parleurs"). Unregistered slogans need a French version.
- **Website & storefront:** product pages, cart, checkout, order confirmations, account pages and transactional emails available in French, at least as accessible as English.
- **Support:** service, contracts, invoices, receipts and warranty documents available in French.
- **Public signage & retail displays:** French must be markedly predominant.

# Privacy & marketing

## CANADA (CA) · MEASUREMENTS, STANDARDS, MARKS & RETURNS

### Units & dates

- **Metric primary**, imperial secondary: "22.9 × 15.2 × 15.2 cm (9 × 6 × 6 in)" · "Cable length: 3 m (9.8 ft)".
- Net-quantity statements on pack follow CPLA metric requirements.
- Dates: ISO **YYYY-MM-DD** on bilingual packaging and documents, to avoid DD/MM vs MM/DD ambiguity.

### Regulatory marks · Trust panel

- **ISED** certification number ("IC: XXXXX-XXXXX") for Bluetooth/wireless products.
- **"CAN ICES-003(B) / NMB-003(B)"** label for digital apparatus.
- Recognised Canadian electrical safety certification (**cUL, cETL or CSA**) for mains-powered products and power supplies.
- Bilingual safety warnings.

### Accessibility

**AODA** (Ontario) requires public websites of organisations with 50+ Ontario employees to meet **WCAG 2.0 Level AA**. Pyle's global standard is **WCAG 2.2 AA**, which exceeds this. The French storefront meets the same standard.

### Returns

No general statutory cooling-off period applies to online purchases. Provincial distance-contract rules (e.g., Ontario, Quebec) give cancellation rights if mandatory pre-contract disclosures are missing or delivery fails. **Publish a clear bilingual return policy.**

### Quebec Consumer Protection Act

The legal warranty of quality and durability applies regardless of Pyle's commercial warranty. Before selling an extended warranty, the seller must inform the consumer of the legal warranty.
