One brand system, localised by market

Pyle has one brand: the same red, the same rings, the same voice and the same promise wherever we sell. What changes from market to market is the **regulatory layer**: how we show prices, which languages we print, which conformity marks go on the box, and how we ask for permission to market to people.

Sections 1 and 2 are **global and fixed**. Sections 3 and 4 are **regional and mandatory**. Where a regional rule conflicts with a global brand rule, the regional rule wins. We then solve the brand problem inside the law, never around it.

> **Brand is the constant. Compliance is the local dialect.**

Source of truth

Pyle USA — Visual Brand Identity Refresh (Jan 2025). Only the **“Visual Brand New”** direction applies. “Visual Brand Now” and “The Packaging Now” are deprecated and must not be reproduced.

Labels used in this guide

- **48HD STANDARD** A rule 48HourDigital set where the source deck shows the asset but gives no numeric rule.
- **SAMPLED** A value measured from the source artwork. Confirm it against the master files before print.
- **REGIONAL** A legal or regulatory requirement. Counsel confirms it before launch.

01

Brand Foundation

Who we are, and why we turn up.

We turn up for you, so you turn nothing down.

MISSION

Pyle exists to shorten the distance between something you're thinking about and something you actually do. For more than 45 years we've made sound and hobbies accessible, so anyone with a spark of curiosity can plug in, start playing and feel it at full volume.

VISION

To be the world's most welcoming way into sound. We want to be the first brand a beginner trusts, the go-to brand for the tinkerer, and the gift that turns someone else's "maybe one day" into "today", in every home, garage, boat, stage and backyard in every market we serve.

45+

years powering passions, hobbies and side projects

THE 45-YEAR HERITAGE STORY

Becoming downright unsilenceable.

For more than 45 years, Pyle has powered passions, hobbies, side projects and inspired gifts into existence. We built our name by making functional gear more accessible to hobbyists, newcomers, garage artists, analog DIYers and people building second setups.

Our promise has never changed. We lower the entry barriers so you can start at any budget, plug into anything easily, and feel it all at full output. We give you the luxury of tuning in, living out loud and feeling your dreams at full volume, until you become downright unsilenceable.

Now that promise is going international. From Toronto to Toulouse, Manchester to Melbourne, Pyle is bringing the same invitation to a new generation of makers, players and listeners.

> "We have a half-century heritage of making functional gear more accessible. With lower entry barriers, you can get started at any budget, easily plug into anything, and feel it all at *full output*."

TAGLINES IN THIS SYSTEM

Four lines. Always written exactly like this.

PRIMARY TAGLINE

Get Into It!

The sign-off on every campaign, pack front and brand film.

SECONDARY

The next thing you'll love.

Discovery, gifting, new arrivals. Rachel Referrer's line.

SECONDARY

Bigger bang. Smaller buck.

SUPPORTING LINE

Buy so you can try.

BRAND ARCHETYPE

80% Explorer. 20% Jester. 100% Pyle.

Pyle's personality blends two archetypes in a fixed ratio. The Explorer leads: it gives every message its purpose. The Jester follows: it gives every message its spark. Get the ratio wrong and we sound either like a spec sheet or like a joke. Get it right and we sound like the friend who talks you into the thing you'll love.

80%
Explorer

Explorer brands help you discover the world. Their products free your individuality, initiative and excitement, and turn experiences into growth.

DESIRE	Fulfillment
REPUTATION	Curious
GIFT	Discovery
EMOTION	Love · Passion · Fulfillment · Curious · Discovery
TRAITS	**Encouraging · Confident · Relatable · Experienced**

20%
Jester

Jester brands invite you to live in the moment, just for the fun of it. They worry less about long-term outcomes and entertain along the way.

Desire Joy · **Reputation** Entertaining · **Gift** Perspective
Emotion Joy · Energy · Entertaining · Happiness · Hope
Traits Optimistic · Laidback · Nudging · Irreverent

Eight traits, put to work.

TRAIT	WE SOUND LIKE…	IN PRACTICE
Encouraging (Explorer)	A friend who says “you’ve got this.”	Lead with what the customer can *do*, not what the product *is*. “Start your first podcast tonight.”
Confident (Explorer)	Someone who’s done this for 45 years.	State facts plainly. No hedging, no hype. “100 W peak. Bluetooth 5.0. Done.”
Relatable (Explorer)	A fellow hobbyist, not a salesperson.	Use everyday words. Explain jargon the first time it appears.
Experienced (Explorer)	A trusted guide.	Give one useful tip per touchpoint. Max Volume delivers it.
Optimistic (Jester)	Someone who sees the fun first.	Frame upgrades and first purchases as beginnings, not risks.
Laidback (Jester)	Relaxed, never pushy.	No false urgency, countdown pressure or fear-based selling.
Nudging (Jester)	A playful push off the fence.	Short, active invitations: “Plug in. Turn up. Get into it!”
Irreverent (Jester)	A wink, not a sneer.	Light wordplay and sound puns, at most one per piece. Never at the customer’s expense.

The 80/20 rule in copy: In any piece of copy, roughly four sentences inform, guide or inspire (Explorer) for every one that delights (Jester). Headlines may lean Jester. Specs, safety, legal and support copy are always 100% Explorer, with zero jokes.

Four people we turn up for.

Every Pyle message is written for at least one of these four people. If a piece of copy doesn't speak to any of them, it isn't Pyle copy yet.

Alex Amateur

THE CURIOUS BEGINNER

WHO	Adult newcomer starting a new hobby: first PA system, first DJ controller, first karaoke night at home.
WANTS	Gear that works out of the box, at a price that makes trying it a low-risk decision.
WORRIES	"Is this too complicated for me?" "What if I don't stick with it?"
VOICE	Plain language, setup in steps, reassurance. "Everything you need to start is in the box."
CHANNELS	Marketplace listings, how-to video, Max Volume quick-start tips.

Buy so you can try.

Sophia Student

THE BUDGET CREATOR

WHO	Student or young creator building a podcast, streaming or music setup in a dorm or shared flat.
WANTS	Maximum capability per dollar, compact gear, and a setup that looks good on camera.
WORRIES	Overspending, noisy roommates, gear that looks "cheap".
VOICE	Value-forward, culturally current, visual. "Studio sound. Student budget."
CHANNELS	Social video, creator collaborations, back-to-school campaigns.

Bigger bang. Smaller buck.

Four people we turn up for.

Profile detail beyond the persona names was developed by 48HourDigital. Validate it against Pyle customer data each year.

Thomas Tinkerer

THE HANDS-ON UPGRADER

WHO	Experienced DIYer: car audio, marine installs, garage workshops, analog restorations and secondary setups.
WANTS	Honest specs, wiring diagrams, compatibility details and gear that lets him modify, mount and mix.
WORRIES	Vague specifications, proprietary lock-in, poor documentation.
VOICE	Spec-first, precise, respectful of his expertise. Full technical panel, no fluff.
CHANNELS	Detailed product pages, spec sheets, forums, user guides.

Plug into anything.

Rachel Referrer

THE GIFT-GIVER & RECOMMENDER

WHO	Buys for others (partner, child, parent, friend) and recommends brands she trusts. She is often not the end user.
WANTS	A confident, giftable choice, clear “who it’s for” guidance, and an easy return or exchange.
WORRIES	Choosing the wrong thing, a gift that disappoints, a complicated return.
VOICE	Benefit- and occasion-led, warm, with clear guarantees. “The next thing they’ll love.”
CHANNELS	Gift guides, seasonal campaigns, email, retail end-caps.

The next thing you’ll love.

Talk like a friend who knows gear.

ENCOURAGING CLEAR PLAYFUL HONEST

Core copy principles

1. **Lead with the passion, then prove it.** Open with what the customer gets to do, then back it up with the spec.
2. **Short beats long.** Headlines: 2–6 words. Bullets: one benefit and one proof each. Sentences: under 20 words.
3. **Active, second person.** “You”, “your”, “let’s”. Avoid “users” and “consumers”.
4. **Numbers are proof.** Use real, verified figures: watts (state RMS or peak), frequency response, battery hours, IP rating.
5. **One wink per piece.** One pun or playful line per asset, at most. Never in safety, legal or support copy.
6. **Truth is non-negotiable.** Every claim must be substantiated, region-correct and approved (see Section 3).

Product listing formula

Title: `Pyle [Product Name] – [Key Spec], [Key Feature], [Use Case]`

Example: “Pyle 3.5" 2-Way Indoor/Outdoor Speaker System – IP67 Waterproof, 70–21 kHz, Universal Wall Mount”

- **Hook line:** one sentence on the passion it unlocks.
- **3–5 bullets:** `BENEFIT IN CAPS: proof in plain language.`
- **What’s in the box · Tech specs table · Compatibility**
- **Warranty & guarantee statement:** region-specific (see Section 3).

Proof beats promises.

DO	DON'T
✓ **"Weatherproof to IP67, so the party keeps going when the sky doesn't cooperate."**	✕ "Totally waterproof! Use it anywhere!" (overclaims; IP67 has defined limits)
✓ **"100 W peak / 50 W RMS power"**	✕ "Massive 1000 W!!!" (unqualified, inflated or unverifiable wattage)
✓ **"Pairs with Bluetooth 5.0 phones, tablets and laptops."**	✕ "Works with everything."
✓ **"Setup takes about 5 minutes. A step-by-step guide is in the box."**	✕ "Easy setup!" with no proof
✓ **"Designed in the USA" (badge, used exactly as supplied)**	✕ "Made in the USA", "American-made", or editing the badge wording
✓ **Spell out units at first use: "Hz (hertz)" in beginner-facing copy**	✕ Stacking unexplained acronyms in a single bullet
✓ **Region-correct spelling, units, currency and guarantee wording**	✕ Copy-pasting US listings into CA, EU, UK or AU storefronts

DO'S AND DON'TS · MARKETING & ADVERTISING

DO	DON'T
✔ **"Get Into It!" as the primary sign-off on campaign assets**	✕ Rewriting or re-punctuating the tagline ("Get into it", "GET INTO IT!!")
✔ **"Bigger bang. Smaller buck." for value-led messaging, backed by real pricing**	✕ "Cheapest on the market" or "best price guaranteed" without substantiation
✔ **Show genuine reference prices for promotions (per regional rules)**	✕ Fake "was" prices, invented discounts or perpetual "sales"
✔ **Invite: "Plug in. Turn up. Get into it!"**	✕ Pressure: "Only 2 left! Buy NOW or miss out forever!" (unless true and verifiable)
✔ **Use real customer reviews, gathered and displayed lawfully**	✕ Incentivised, fabricated, cherry-picked or undisclosed-incentive reviews
✔ **Max Volume for tips, onboarding and helpful nudges**	✕ Max Volume in price claims, legal copy, safety warnings or complaints handling
✔ **Clearly label paid partnerships (#ad / "Paid partnership")**	✕ Hiding influencer payments or gifted-product relationships
✔ **Inclusive casting and language**	✕ Jokes about skill level, age, gender, body or accent
✔ **Keep Pyle politically neutral in all owned and paid media**	✕ Using politicians, political rallies or protest imagery, even organic photos of Pyle products in use

Visual Identity Standards

Simplicity. Memorability. Timelessness. Versatility. Relevance.

LOGO SYSTEM

One wordmark. Three ways to wear it.

The refreshed PYLE wordmark keeps the heritage letterforms and sharpens them for screens, packaging and product. It is built on a precise construction grid and judged against five principles: Simplicity, Memorability, Timelessness, Versatility and Relevance.

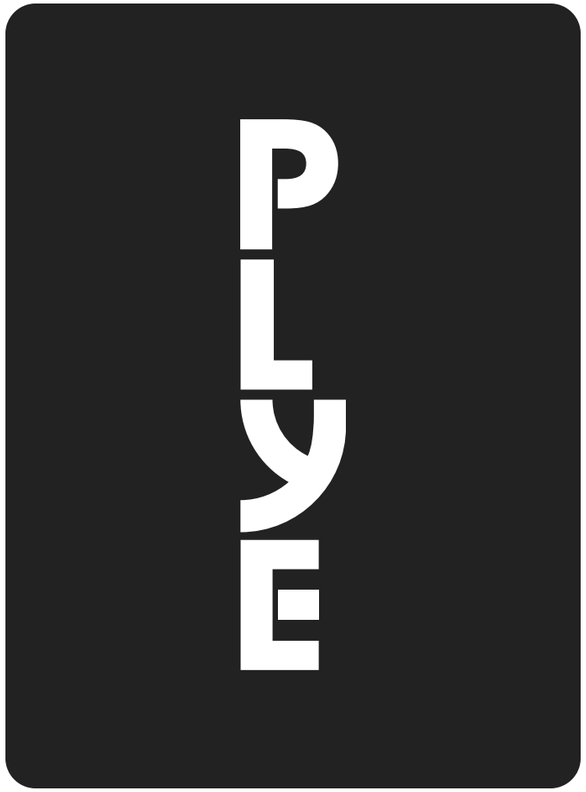

1 · Primary Wordmark: PYLE

The default on every touchpoint: packaging fronts, web headers, advertising, social and documents.

2 · Stacked Icon: PY / LE

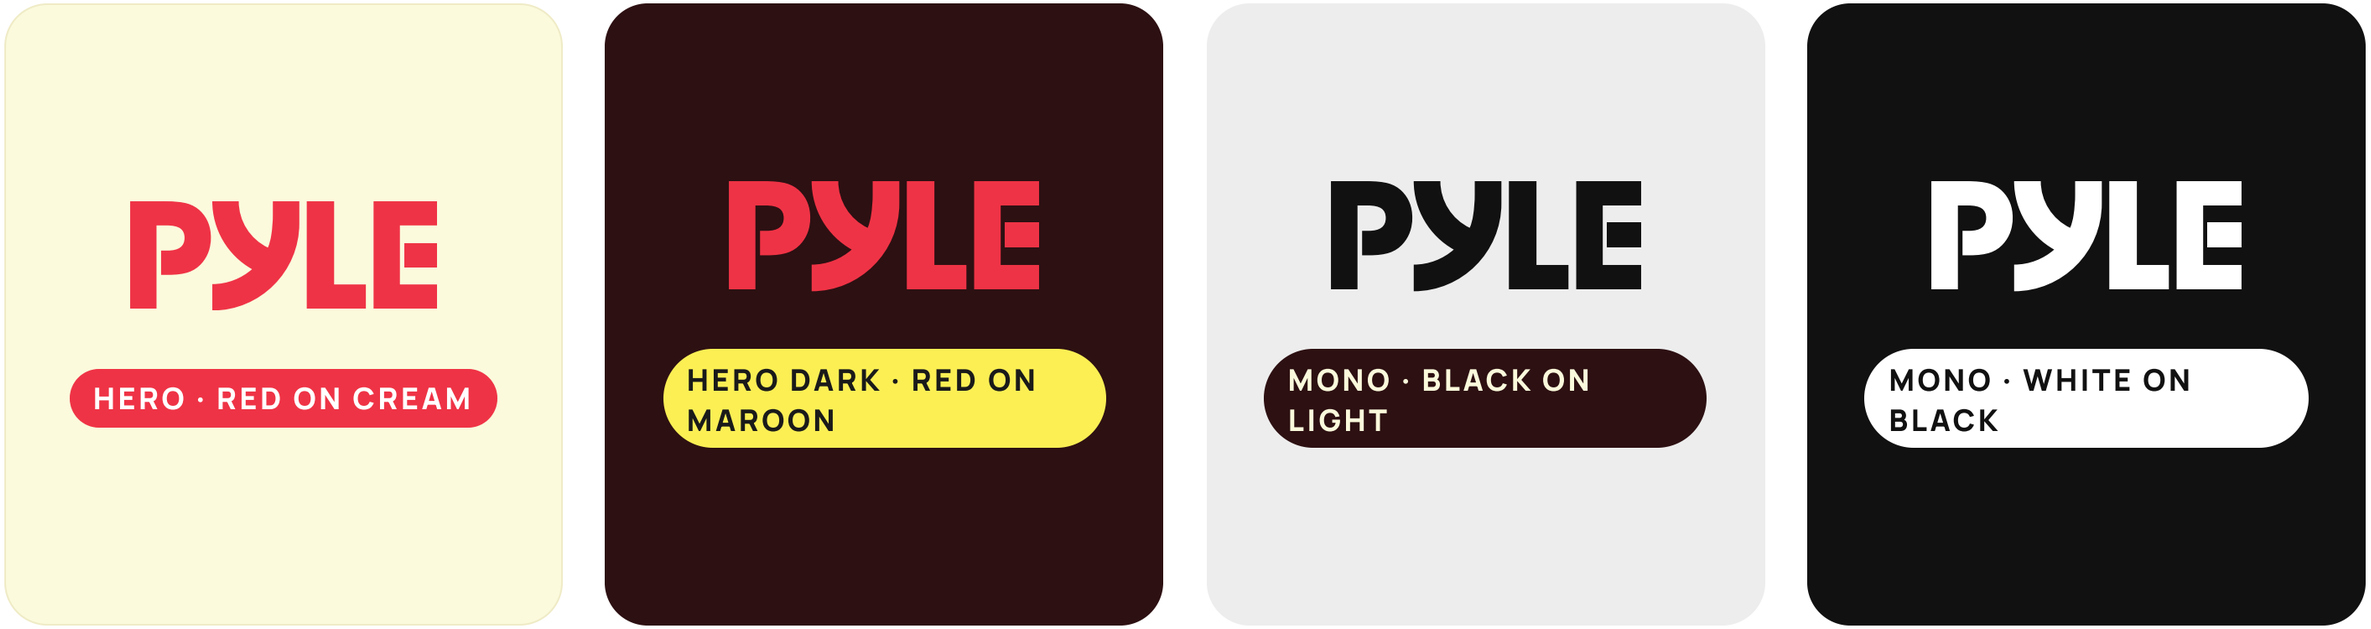

For small square formats: app icons, favicons, avatars, product badges, embossing, hang-tags. It never replaces the wordmark on pack fronts or in headlines.

3 · Vertical Lockup

For tall, narrow surfaces: speaker grille badges, tower speakers, mic stands, side gussets, tape. Reads top to bottom.

Four approved backgrounds. No exceptions.

On photography

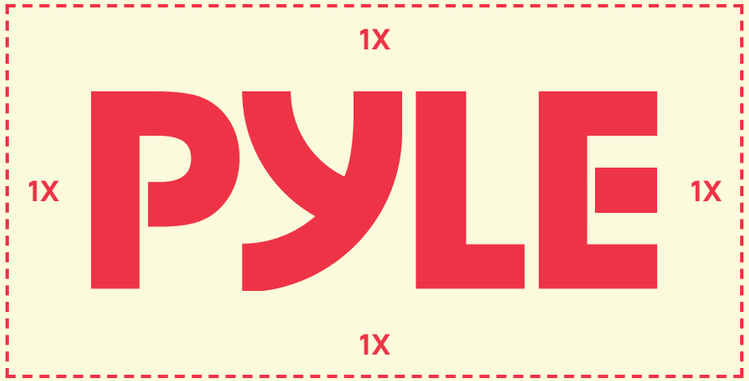

Use Cream or Accent Yellow on photography only where the logo area passes contrast (see the Colour contrast slide). Keep a calm, low-detail zone behind the mark.

Registered symbol ®

Use ® only in jurisdictions where the PYLE mark is registered. Where registration is pending or not held, use ™ or no symbol. Falsely claiming registration is an offence in several of our markets (including the UK and Australia). Brand Legal holds the master registration list.

CLEARSPACE & MINIMUM SIZE 48HD STANDARD

Give it room to be loud.

- **X = the cap height of the "P"** in the wordmark as used.
- Primary wordmark: **1X** on all sides. Stacked icon: **0.5X**. Vertical lockup: **0.5X** left and right, **1X** top and bottom.
- No text, graphics, edges, folds or rings may enter the clearspace. Rings may run *behind* the logo only on full-bleed brand backgrounds where the logo passes contrast.

ASSET	PRINT	DIGITAL
Primary wordmark	20 mm wide	80 px wide
Stacked icon	10 mm wide	32 px wide 16 px favicon uses a simplified, pixel-hinted file
Vertical lockup	8 mm wide	24 px wide
"Designed in the USA" badge	12 mm diameter	48 px diameter

Logo misuse: never

- × Stretch, condense, skew, outline or add effects (shadow, glow, bevel, gradient).
- × Recolour outside the approved colourways, or retype the logo in Parafina or any typeface.
- × Use the deprecated "Visual Brand Now" logo or the pre-refresh "PYLE® Experience Life!" lock-up.
- × Place it on busy photography without a contrast-safe zone.
- × Combine it with a sub-brand, retailer logo or tagline inside its clearspace.
- × Rotate the horizontal wordmark 90° to imitate the vertical lockup.

An endorsement, never a headline.

Left: dark outline on light or kraft backgrounds. Right: white on Pyle Red.

Placement

- **Packaging:** Trust panel and lower-right of the Product panel.
- **Product pages:** next to warranty and guarantee information.
- **Advertising:** as an endorsement, never as the headline.

Rules

- Never change the wording to “Made in”, “Built in” or “Engineered in”.
- Never use the badge on a product that was not genuinely designed by Pyle’s US team.
- Always show the true country of manufacture elsewhere on the pack (e.g., “Made in China”).
- Never place the badge directly beside the country-of-origin line where the two could be read as one claim.

CANADA · MANDATORY

Packaging sold in Canada carries the French badge, **“CONÇU AUX ÉTATS-UNIS”**, either as a bilingual roundel or paired with the English version at equal or greater prominence (see Regional · Canada).

OTHER LANGUAGES · OPTIONAL

EU language variants of the badge are optional. Translated badges are produced only from the master file by 48HourDigital.

COLOUR PALETTE

Red leads. Yellow plays.

Our colours carry our archetypes. **Pyle Red** is the Explorer: love, passion, fulfillment, curiosity, discovery. **Accent Yellow** is the Jester: joy, energy, entertainment, happiness, hope. Maroon, Cream, Black and White give them room to work.

NON-NEGOTIABLES

- Body copy, prices, form labels, legal text and error messages must reach **at least 4.5 : 1**.
- UI components and meaningful icons must reach **at least 3 : 1**.
- Never use colour alone to convey meaning (stock status, errors). Pair it with an icon or text.
- Accent Yellow is never used for text on white or cream.
- Buttons: Pyle Red with **black** label, or Deep Maroon with Cream/Yellow label. If White-on-Red is required for brand reasons, set the label at ≥ 18.66 px bold.

“Large text” = ≥ 24 px regular or ≥ 18.66 px bold.

Licensing

Manrope and Delicious Handrawn are open-licence (Google Fonts) families. Parafina is a commercial typeface. Confirm desktop, web, app and packaging seats before regional rollout.

Glyph check before localisation

French: é è ê ë à â ç î ï ô û ù ü ÿ œ æ « »
German: ä ö ü ß, and capital ß where used.
If Delicious Handrawn is missing a required glyph, re-choose the accent word or hand-letter it from the master. Never mix fonts inside a single word.

French typography

Canada (OQLF): no space before ! and ?; a space before “:”.
France: narrow no-break space before ! ? ; : and inside « guillemets ».

GRAPHIC SYSTEM

The Pulse of Play

The heartbeat of Pyle.

“Pulse of Play” is our visual design system. It captures the dynamic essence of Pyle’s audio experience in concentric soundwave rings that radiate outward like sound from a speaker cone or the grooves of a record.

It stands for innovation, quality and the joy of sound that echoes through every product we create. With Pulse of Play, every beat and note is not just heard, but truly felt, across every visual touchpoint.

Radiating sound into every space.

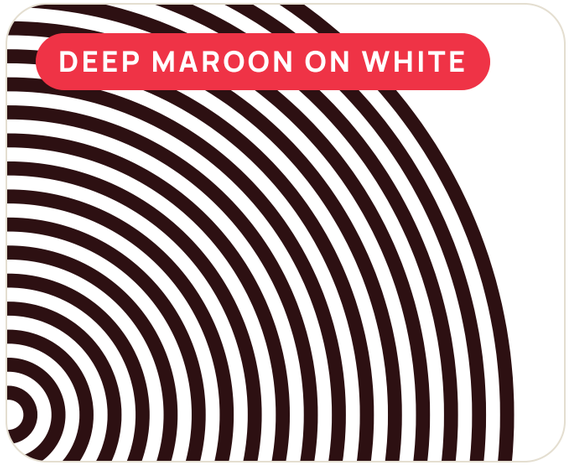

Concentric. Even. Always from a source.

- Rings are **concentric and evenly spaced**. Stroke weight and gap are equal (1 : 1) by default. A 1 : 1.5 gap is permitted on large formats.
- The ring centre (the “source”) sits on a meaningful point: the product’s driver, a performer’s mouth or microphone, the logo, or deliberately off-canvas so arcs sweep in from a corner.
- **With photography:** rings may wrap around or emerge from behind a cut-out subject to create depth. They never cross a face or obscure the product.
- **Motion:** rings pulse outward from the source at tempo. Use 1–2 seconds per cycle, ease-out, and loop seamlessly. Respect `prefers-reduced-motion` with a static frame.
- **Never:** distort rings into ellipses (except for perspective on 3D packshots), add gradients, mix more than two ring colours, or use rings as a text background below 7 : 1 contrast.

Rules

- One icon per feature, always with a short label.
- Keep the tile: white or Cream circle, Pyle Red line.
- Category icons and feature icons never share a row.

BRAND MASCOT

Meet Max Volume

Max is our Megaphone Mascot, a character who embodies the spirit of Pyle's audio innovation and community engagement. Max is the voice of the brand. He delivers helpful **tooltips**, **inspiring quotes** and engaging content directly to our audience.

Where Max appears

- Tooltips and "Tip:" call-outs in user guides, quick-start cards and product pages
- Onboarding moments, empty states and success messages in digital products
- Social content, packaging inserts, and community or event content

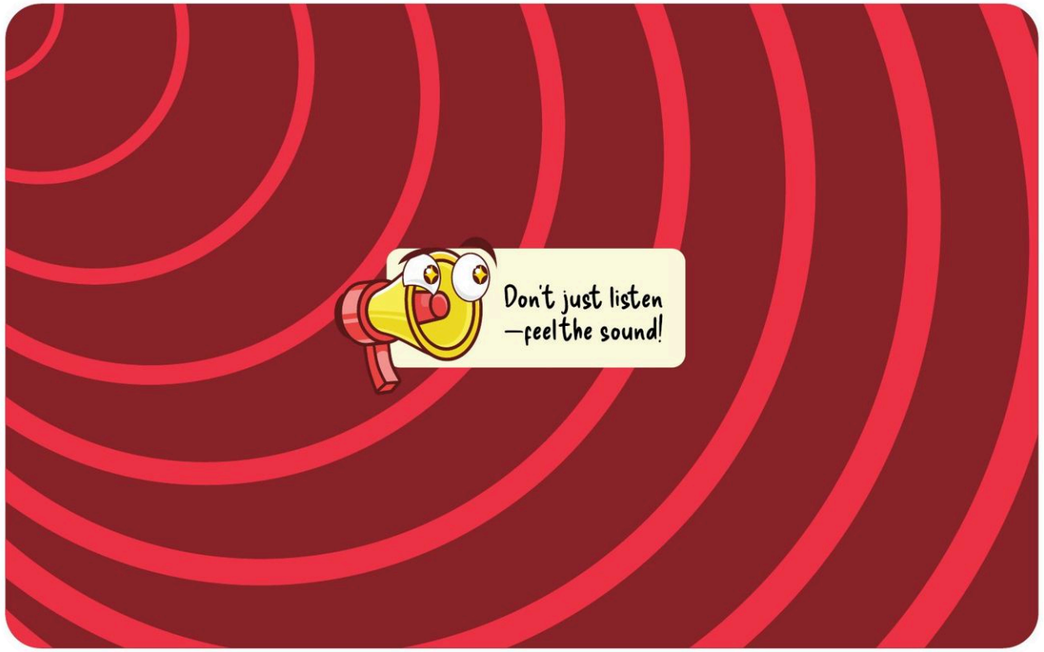

Max's voice

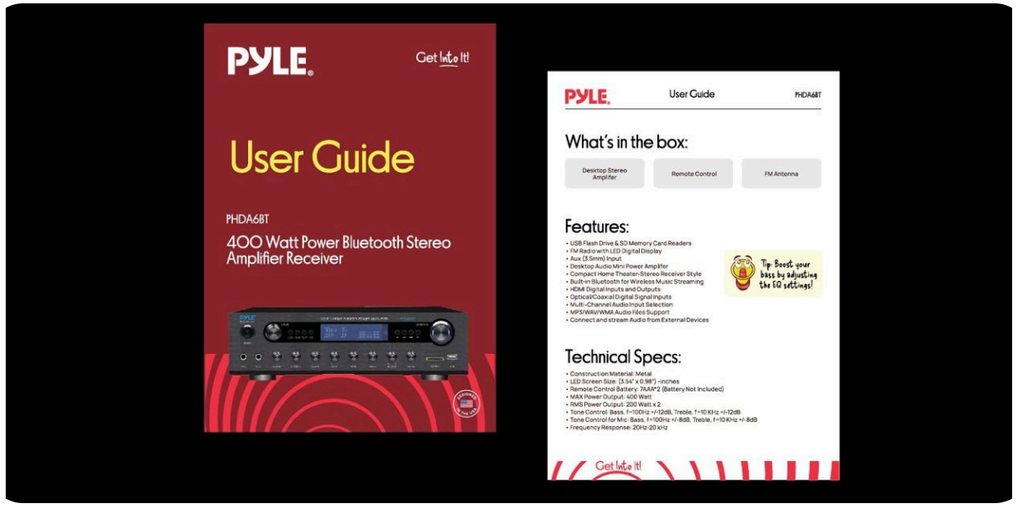

Short, upbeat, useful. Always one actionable idea. Written in Delicious Handrawn inside a Cream speech bubble.

Don't just listen — feel the sound!

Try this feature for a sound that's as big as life!

Tip: Boost your bass by adjusting the EQ settings!

1. Max appears **once per layout**, maximum.
2. Max always **speaks toward the content** he refers to. The megaphone points at the bubble or the feature.
3. Maintain **0.5× Max's height** in clearspace around the character and bubble.
4. Minimum size: **24 mm / 64 px** tall.
5. Never recolour Max, change his expression set, add accessories, crop his face, or animate him off-model. All poses come from the master character sheet.
6. Max is not used next to the "Designed in the USA" badge or regulatory marks.
7. **Localisation:** Max's lines are *transcreated*, not translated word for word. In Canada, every Max bubble on packaging and in Quebec-facing digital content must have a French version.

Max never delivers

Prices or promotions · safety warnings · legal or compliance statements · warranty or guarantee terms · apologies or complaint responses. Those are always plain Manrope copy.

- Pure white background (#FFFFFF) for marketplace hero images; Light Grey or Cream for brand-site secondary images.
- Product fills **85%** of the frame, shot square (1:1), minimum 2000 × 2000 px.
- Even, soft, shadowless or soft-contact-shadow lighting, with true-to-product colour.
- **Image set per SKU:** hero 3/4 · front · back/inputs · scale-in-hand or in-context · what’s in the box · infographic (3 features, Manrope, max. 6 words each) · dimensions (dual units where required) · lifestyle.
- No added logos, badges, watermarks, Max Volume or promotional text on hero images.
- **Regional accuracy:** plugs, chargers and on-screen languages match the market: Type A/B (US/CA), C/F (EU), G (UK), I (AU). Never show a charger in markets where the product ships without one.

B · LIFESTYLE

“The Feeling”

- Real people mid-passion: singing, playing, building, celebrating. Faces show joy, focus or surprise.
- Warm natural light, lived-in environments, honest textures. No sterile studio sets.
- Product is visible and in use. The scene is the hero, the gear is the enabler.
- Pulse of Play rings may be composited to radiate from the product.
- Casting reflects the diversity of each market, with a range of ages, abilities, body types and backgrounds, and matches our four personas.
- **PRO line:** dark, high-contrast, coloured gels (cyan/red), performer close-ups. **VINTAGE line:** light grey sets, retro wardrobe, chrome and classic microphones.

CATEGORY	SCENE DIRECTION
Home	Living rooms, bedrooms, home studios. Guitar on the sofa, piano corner, vinyl and retro radio. Warm, golden-hour interiors.
Marine	Boats on bright water, docks, wakeboarding, harbour skylines. Saturated blues and teals, sun flare and spray. Gear shown weather-exposed but secure.
Live Audio	Stages, community events, karaoke nights, house parties. Performer-centred, crowd energy, stage lighting with red/maroon gels.
Production	Podcast desks, streamers, bedroom producers. Mic close-ups, RGB accents kept subtle, shallow depth of field.
Instruments	Hands on keys and strings, practice rooms, garage bands. Candid, mid-performance.
Automotive	Garages, install bays, open-road drives, tailgates. Detail shots of installed units. **Right-hand-drive cabins for UK and AU.**
Power	Camping, job sites, storm prep. Practical, capable, never fear-based.
Security	Homes and small businesses at dusk, calm and confident. No imagery that implies criminal threat or profiles people.
Video	Home cinema, projector nights, content creation. Immersive, low-light, glowing screens.
Tools & Accessories	Workbench flat-lays, cable management, hands mid-task. Tidy and organised.
Outdoor & Digital	Billboards, transit, social. Bold Pyle Red frames with lifestyle crops and a single headline.

Never

- × Stock-looking, over-posed imagery.
- × AI-generated people presented as real customers.
- × Images that misrepresent size, finish or included accessories.
- × Unsafe use (unsecured marine installs, distracted driving).
- × **Politicians, public figures, political rallies or protests**, even organic or press photos of Pyle products in use. They imply endorsement, raise publicity-rights issues, and press images are licensed only for editorial use.

3 Product

Principal display panel. What it is and why it's great, in 5 seconds.

Model number pill (e.g., PDWR35BK) · product name in Parafina · line art or photo · **three key features** in the yellow callout box · "Get Into It!" · USA badge · PRO/VINTAGE badge.

4 Technical

Side or back panel. Everything for the tinkerer.

Feature list with Product Feature Iconography, full specs table, I/O diagram, what's in the box, compatibility, dimensions & weight (units by region). **Order:** Product → Feature → Spec → Benefit.

5 Trust

Base of technical panel / bottom. Safe, legal, accountable.

Barcode (UPC/EAN), country of manufacture, regulatory marks, warnings (e.g., Prop 65 in US), manufacturer & importer addresses, warranty/guarantee, recycling marks, support contact.

The Trust panel is the regional module. It is designed as a swappable "compliance strip", so one master artwork can be released as US, CA, EU, UK and AU variants (see Section 3).

Primary Master Carton

Natural kraft, one-colour black print. Pulse of Play arcs, line-art product, the same five-pillar logic. Sustainable, low ink, shipping-ready.

Primary Consumer

Full-colour Maroon pack (or the White variant for clean retail and e-commerce), lifestyle photo window, Accent Yellow feature box. Branded Pyle Red tape for direct-to-consumer shipments.

Packaging rules

- The wordmark appears on at least four faces.
- Feature callouts: maximum three on the front. Everything else goes to Technical.
- No price, retailer-specific or time-limited claims are printed on pack.
- All regulated text is in Manrope, black or white, at legal minimum size or larger.
- Language-of-pack rules, regulatory marks and addresses vary by market. Follow Section 3 exactly.

Where they go

- **Pack:** the Trust panel, as one row of up to four badges.
- **Product page:** directly under the Add to cart button.
- **Reviews strip:** product pages, email and retail decks. Show real average ratings and refresh them every quarter.

Only show what's true in that market. Show "Free Shipping" only where it's offered. The warranty badge must match the SKU's real warranty term. In the EU, UK and AU it links to terms stating the warranty is *in addition to* legal rights.

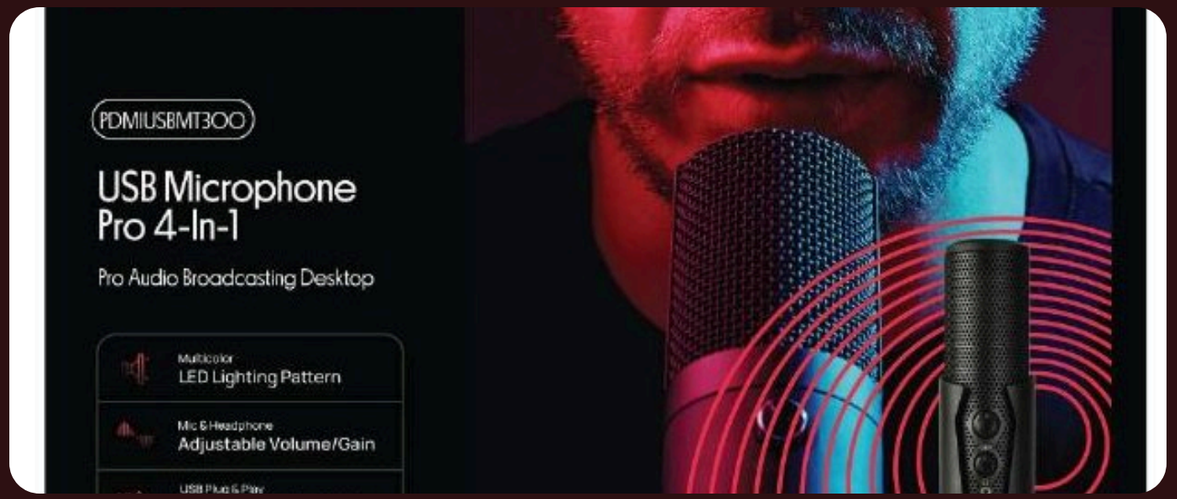

Standard (Maroon), **PRO** (dark, gel-lit) and **VINTAGE** (light grey) lines share one grid: wordmark top-left, model pill, product name, yellow feature box, lifestyle window, “Get Into It!” and the badge bottom-right.

SUB-BRAND SYSTEM

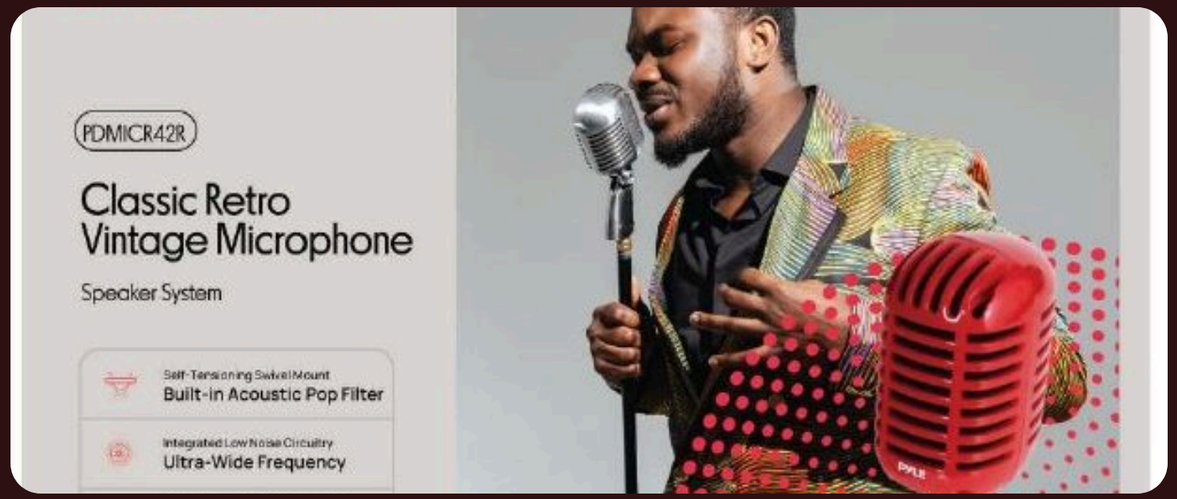

PYLE PRO & PYLE VINTAGE

PYLE PRO

- **For:** production, broadcast, live and studio gear.
- **Look:** black ground, neon cyan and red gel lighting, close-up performers.
- **Badge:** black pill with white type and a white outline, top-right of the photo.

PYLE VINTAGE

- **For:** retro microphones, turntables, classic radios.
- **Look:** warm light-grey ground, retro wardrobe, chrome, red halftone dots.
- **Badge:** black pill with white type, top-right of the photo.

Both lines keep the same 5-pillar layout. The pill never replaces the PYLE wordmark, and a pack never carries both pills.

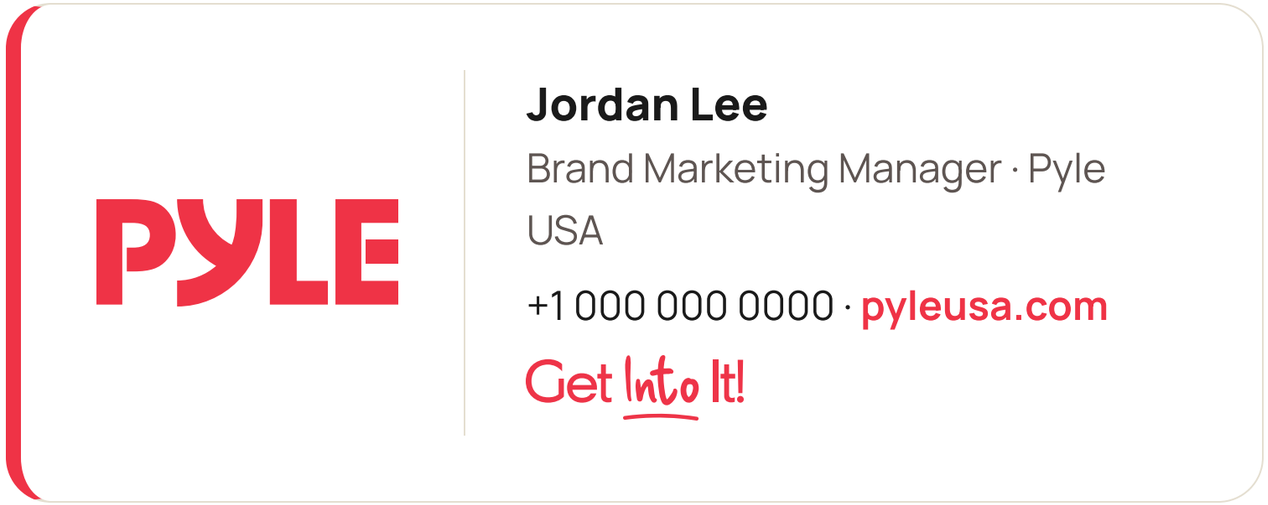

Small screens, same Pyle.

Social avatars

- **Primary:** stacked icon in White on Pyle Red.
- Keep the mark inside the central 60% so circle crops never cut it.
- Export at 1080 × 1080 px. Same avatar on every platform.
- Banners: Pulse of Play rings plus one headline. No text in the outer 10%.

Email signature

Sample layout. Name and number are illustrative.

- Logo 120 px wide, then name, title, phone and URL in Manrope.
- The “Get Into It!” lockup is the only tagline. No GIFs, quotes or extra images.
- German and Austrian email adds company details and a link to the Impressum.

Pyle leads. Retail partners follow.

“Available at” row

Retailer logos sit together in one row, at equal height on a shared baseline, below the Pyle message. Never inside the Pyle logo clearspace.

Follow their rules

Use each retailer’s approved artwork, colours and clearspace, and only while the partnership is active.

No implied endorsement

Retailer marks show where to buy, never that a retailer recommends Pyle. Retailer promotions are never printed on pack.

GOVERNANCE & REVIEW

Keeping the brand loud and the compliance tight.

01

Ownership

Brand owner: Pyle USA Marketing.
Guide custodian: 48HourDigital.

02

Approvals

Every new regional SKU pack, storefront and campaign is signed off by (1) Brand, (2) Regional Compliance or counsel, and (3) Localisation (native-speaker transcreation review for FR-CA, FR, DE and other EU languages).

03

Review cycle

Reviewed **every six months**, and immediately after any material regulatory change in a served market. Regional slides record the date they were last verified.

04

Asset source

Logos, the Max Volume character sheet, Pulse of Play pattern files, colour libraries (ASE / Pantone) and packaging dielines come only from the Pyle master brand library. Never rebuild them from screenshots.
